# Arie Dijkstra

## DECADES OF DEDICATION LEAD TO THE BEST ALL-ROUND COLONY IN THE WORLD

With no nonsense and top genes as key-words, Enne and Arie Dijkstra walked the road to eternal fame in pigeon racing. After immediate provincial successes in the Seventies, National highlights followed from the early Eighties on ... and since the first Dijkstra pigeons excelled on One Loft races around the world, the name is written with golden letters in the annals of pigeon sport.

Mentioning the name of Arie Dijkstra directly brings his base pair Leonardo x Tinkelbel in mind ... absolutely one of the best breeding pairs in the world ever! Olympiad birds, National aces, NPO wins and over 2 Million Dollar prize money on One Loft Races

is what offspring of this top pair is responsible for. However discovering the source of 'the Dijkstra pigeon' brings us way back, to the Seventies. When Arie was just a kid and his father and he got caught by the microbe called pigeon sport ...

## // Beerda pigeons as solid foundation

In the family of Enne and Hennie Dijkstra, young Arie (born 1966) was the only son, followed by two younger sisters. Those days pigeon racing was a real popular pastime and Enne build him 2 small lofts to home 9 pairs, filled with youngsters from local fanciers ... as time was scarce with a young family and a busy job, he raced in partnership with Jaap Noordhof under the name Comb. Buko ... in 1970 they were already 7. champion overall in the province of Fryslân and won a provincial race with 'The 023' ... still the genes of this winner run through the veins of many current top racers!

Because of Enne's job in the army, the family moved to Germany and a selection of pigeons moved with them. Along with his own pigeons, youngsters from the best breeders of the brothers Willem and Piter Beerda came to Enne Dijkstra. Willem and Piter are now world famous because their pigeons are the base of the famous Jelle Jellema strain ... In 1972 already Beerda had high class pigeons. The base was the famous Belgian allround strain of Tournier. The 'Oude Belg' and 'Othello' x 'Nel' genes from Jac Tournier but also Tournier pigeons via Dick Postma and Arie Van De Hoek, crossed with a bit of Louis Van Loon and Jan Aarden bloodlines as well.

About five years Enne raced his pigeons in Germany and did very, very well. In 1977 the army enabled him

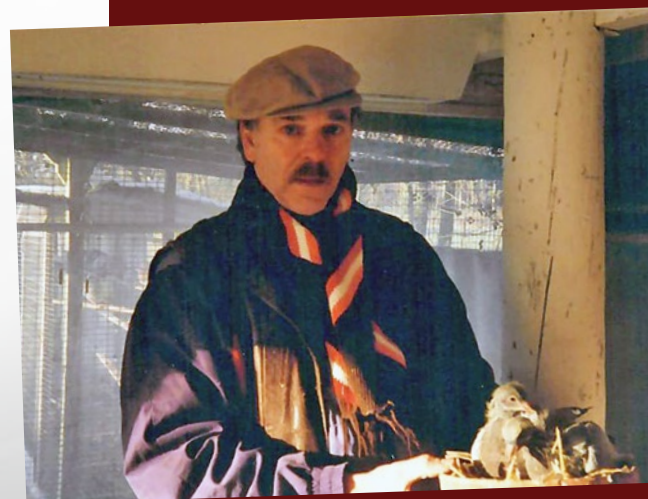

to return to The Netherlands and the Dijkstra family went to the small village Kollummerpomp. Arie had just turned 11 that year and more and more he helped his father homing the pigeons. He fed them when his father was away during the week for a course and in those days – with Piter Beerda as clubmate – Arie learned a lot about pigeons. He also became part of success; in 1978 already Enne and Arie raced the 1. provincial acebird. His best memories go back to 1981. "We raced all distances, also the marathon race from Bergerac. We entered 6 Beerda based pigeons and won 1.-5.-9.-15. provincial from 1023 km ... the first three all had the same mother, a granddaughter of 'Oude Belg' Tournier. The first two were bred with the same cock, directly from Willem and Piter Beerda. A year before, in 1980, we had the 5. Nat. racing hen WHZB and she was bred from a full sister to the 1. & 5. provincial Bergerac (1023 km). No wonder later Jelle Jellema became so famous with pigeons from the same origin!! For us they have been doing great since the late Seventies."

## // Outstanding skills in all disciplines

The super result on Bergerac was naturally no coincidence. And again; the pigeons doing the job on that heavy edition are again ancestors of the current champions. It is probably one of the strongest characteristics in the strain of Dijkstra; their ability to pass on top genes to many new generations.

# Arie Dijkstra, a creative mind

Successful fanciers are often blessed with peculiar character traits. For Arie Dijkstra the combination of an extreme high regularity in managing his pigeons with searching for the borders of creativity in music makes him that unique. Two opposites and that is exactly why Arie chose music as outlet. "In pigeon sport I am maybe close to autistic" Arie says. "When it comes to music I let myself go and get lost in what I like. Both pigeons and music I absolutely love, however I experience them in total different ways. The only similarity is that in both I want to be very good!"

# Survey of decades National highlights

7. National acebird yearlings  
DE ALLERBESTE 2020
8. National acebird short dist. Late Tour  
WHZB/TBOTB 2019
8. National champion one day L.D. NPO 2018
10. National acebird short distance  
WHZB/TBOTB 2017
3. National ace cock WHZB 2016
9. National acebird one day long dist.  
FONDSPIEGEL 2013-2016
6. Dutch Olympiad bird cat. C one day L.D. 2013
1. National champion long distance NPO 2011
9. National acebird allround EUROPA CUP 2011
4. National champion cat. 8 one day long dist.  
FONDSPIEGEL 2010
6. Dutch Olympiad bird cat. E (marathon) 2009
2. National acebird one day long dist. WHZB 2008
2. National acebird one day long dist. NPO 2008
2. International acebird marathon WENC 2008
5. National champion SATURDAY-UNION 1995
1. National champion SATURDAY-UNION 1993
3. National racing hen WHZB 1989
3. National ace hen DE VREDESDUIF 1989
5. National racing hen WHZB 1980

Another unique quality; Dijkstra pigeons have an unequalled intrinsic health. "We never visit a veterinary surgeon during the racing season", Arie says, "and we still don't. A pigeon must always be able to keep itself healthy; that is one of the principles we follow without concessions."

The family moved again, now to Buitenpost in 1982. Racing as E. & A. Dijkstra, in 1983 already they had 1. acebird long distance provincial LD Club and for the 10 years to come they were amongst the top 10 provincial champions every single year. In these years the strain of Dijkstra got its unique identity. With a/o the famous 'Blauwe Koppel', formed by a Beerda based cock from Tournier lines x a blue hen of Gebr. Janssen origin ... this pair bred at least 13x 1. Prize winners including 'De Dikke Blauwe', as a yearling 1. acebird Fed., as a five year old again 1. acebird Fed and totally 5x 1., later grandfather of 'Tinkelbel' ... a full sister was crowned 3. Nat. ace hen De Vredesduif in 1989 ... a half sister to 'De Dikke Blauwe' was 1. acebird on short, middle and long distance ... from 100 to 800 km; the Dijkstra pigeon could do the job.

Also in the Eighties, the Tournier Pair was formed ... especially famous for their offspring with the unique

colour choco. Again the Beerda genes and 'Oude Belg' Tournier genes are at the base of this pair, that definitely broke through when a granddaughter was crowned 3. Nat. racing hen WHZB in 1989. Enne and Arie were absolutely at the top and in 1993 they were crowned 1. National champion of the Saturday-racers with about 10,000 members. After that season most of the pigeons were sold in auction; Enne's job asked more and more of him and Arie was studying in Groningen ... it was time for a step back.

3. Duffel 491 b. (6. - 2,770 b.)
3. Duffel 156 b. (5. - 621 b.)
4. Sittard 509 b. (10. - 2,647 b.)
6. St.Ghislain 450 b. (28. - 2,385 b.)
7. Venlo 520 b. (14. - 3,341 b.)

## // Towards the National breakthrough

Like many dedicated fanciers, competing in pigeon racing with 60% efforts did not comfort Enne and Arie. When Arie graduated for his study Social Geography, he got to work for big companies all around

# TOP REFERENCES WITH DIJKSTRA OFFSPRING IN 2021

2. Dutch Olympiad bird allround Cat. D 2022 (2019 + 2020) for Rink Wijnstra  
Mother is original Arie Dijkstra from 'Rocking Blue' (son 'Leonardo' x 'Tinkelbel') x 'Gastorina' (VD Wouwer)
3. Dutch Olympiad bird one day long dist. Cat. C 2022 (2020 + 2021) for H.T. Deuring  
Grandfather (cock's side) is original Arie Dijkstra from 'Ajax' (son 'Brother Leonardo' x 'Tinkelbel') x 'Scarlet' ... and grandmother (hen's side) is original Arie Dijkstra from 'Stone' (brother 'Leonardo') x 'Marta' (from brother 'Tinkelbel').
6. Dutch Olympiad bird one day long dist. Cat. C 2022 (2020 + 2021) + 2. Nat. ace long distance 'De Allerbeste' 2021 for Peter Crans  
Bred from an inbred pairing with 5x 'Tinkelbel' and 4x 'Leonardo' in the pedigree.
1. National ace middle distance FCI World Best Pigeon 2021 for Jelger Klinkenberg  
Mother is original Peter Crans who bred her from his Arie Dijkstra-strain. A super inbred hen with 5x 'De Big Boom'/'Evita' and 3x 'Leonardo'/'Tinkelbel' in the pedigree.
1. Final Victoria Falls WCPR 2021 (US \$ 100,000) for Miha Sovic  
Father is original Arie Dijkstra from grandson 'Leonardo' x 'Tinkelbel' and a g.daughter of 'Brother Leonardo' x 'Tinkelbel'.
1. Boxmeer against 20,327 b. for Gaatse Bosma  
Father is original Arie Dijkstra from 'Maximilian' (son 'Okidoki') x Daughter 'Tinkelbel'.
1. NPO Limoges 877 km 881 b. & fastest Nat. SIV 2,273 b. for Comb. Abbink  
Mother is original Arie Dijkstra from 'Ravi' x 'Ulla' (super inbred with 5x 'De Big Boom' x 'Evita', 3x 'Leonardo' and 2x 'Tinkelbel' in the pedigree).

The Netherlands and still managed to invest more time in the pigeons. Already in 1995 the title 5. Nat. champion of the Saturday-racers was won and a new period of successes rose. And even more important; in these years the base for later successes was laid.

In the middle Nineties important pigeons in the strain of Enne and Arie Dijkstra were born ... like for instance NL93-4245779 'De Strik', base breeding hen, mother of 'De Big Boom' (father 'Leonardo') and breeder of at least 5 generations dominating for Arie Dijkstra ... but also NL94-2152375, one of the last direct daughters bred from 'Dikke Blauwe' and mother of 'Tinkelbel' when she was paired to 'Lichte Morlincourt',

super cock bred from a brother of 'De Big Boom' and a daughter of 'Het Grijs Orleanske' (full sister 'De Strik'). So all the best genes of the old strong Dijkstra pigeons formed the new unique pair; 'Leonardo' x 'Tinkelbel'. Now considered as one of the best ever in The Netherlands and for Enne and Arie Dijkstra and at the base of numerous wins and acebird titles. It also meant the definite breakthrough in The Netherlands with National aces and highlights on NPO races.

In 2003 Arie had moved to Oudwoude and it was here where he formed the now legendary pairs like 'Big Boom' x 'Evita' (parents 'Leonardo') and 'Lichte Morlincourt' x 'Dght. Dikke Blauwe' (parents 'Tinkelbel') ... no wonder Arie had a 'kick start' in his career as an individual pigeon fancier. Naturally 2. Nat. acebird long dist. 'Okidoki' - son of 'Leonardo' x 'Tinkelbel' - was the pigeon to put the National spotlights on Arie Dijkstra; his (half)brothers and sisters performed extremely well in racing and breeding as well. When Enne became 1. Nat. champion long distance NPO with all pigeons bred by Arie, both men were naturally extremely proud. And when Jan Hooymans en Gebr. Leideman won 2. en 6. Grand Avg. acebird in the South-African Million Dollar pigeon race with grandchildren of 'Leonardo' x 'Tinkelbel', the Dijkstra pigeons became 'hot' all over the world.

Arie himself kept on puzzling how to fulfil his continuous desire to breed new champions.

### // Replenish the golden bloodlines

In that search for top material to cross to the 'Leonardo' x 'Tinkelbel' dynasty, Arie searched very carefully. For the marathon races he purchased 'Zoon Donkere Kweker', half brother to legendary 'Bergerac-doffer' of Jellema. From 'Donkere Kweker' x Steketee hen the 2. Int. acebird marathon WENC 2008 'Nightrider' was bred, still his offspring does very well on hard races ... At Belgian long distance champion Chris Hebberecht a/o the cock 'Pancho 453' came and paired to the 'Leonardo' x 'Tinkelbel' pigeons he bred impressive long distance winners like 'Ravi', 'Gregor' and 'Gunnar' and is grandfather of prov. triple ace winner 'Remedy'. Furthermore 'Den 231' bloodlines purchased at Flor Engels also appeared to cross very well to Arie Dijkstra pigeons; a/o 3. Nat. ace cock WHZB 'Powerplay' is bred from this crossing.

Spectacular was the introduction of 'Gastorina', 'Gaston's Aske' and 'Inteeltje Kaasboer';

all original Gaston Van Wouwer pigeons and inbred to world famous 'Kaasboer'. Paired to exponents of the 'Leonardo' x 'Tinkelbel' base they bred some of the best current Arie Dijkstra pigeons, like 'Fausto', 'Cosmic', 'Kashmir', 'Muze', 'Fuzzy Blue'; all 1. prize winners & super breeders! The Van De Wouwer bloodlines were therefore carefully treasured by Arie in the past years. Two more very good breeders from other fanciers are a/o 'Enzo' from Peter Jansen, breeder of 2. Int. Chateauroux winner 'Savannah' ... and 'Son Sven' from Elzinga, breeder of a/o 1. NPO Sens winner 'Sensible Blue' ...

**In over 4 decades time, Enne and Arie Dijkstra have created the ultimate breeding colony for races from 100 to 1,000 km. Since the decreasing health of his father, Arie manages the colony by himself what is a big task.**

**The decision to say goodbye to his life's work was a very heavy decision ... however the thought of his pigeons breeding new champions all over the world, softens the pain of farewell.**

**The Arie Dijkstra auction on PIPA is unique in its kind and for one of the absolute highlights in the 2021-2022 auction season on PIPA.**

*They walked the road to eternal fame in pigeon racing*

# The fairy tale of 'LEONARDO' X 'TINKELBEL'

**Sometimes in pigeon racing the story behind a legendary breeding pair reads like a fairy tale. When Arie Dijkstra called his favourite hen 'Tinkelbel', he must have considered her the main character in a new tale he wanted to compose himself. Pairing up a hen with supernatural skills to a cock called after the genius Leonardo Da Vinci, was destined to bring some kind of magic.**

Shortly after Arie Dijkstra's start on his current address, the beauty hen NL04-4256369 'Tinkelbel' demanded a main role winning a/o 1. prize St. Ghislain 4,317 b. with unfavourable wind. She was from the very best lines Arie had, from 'Lichte Morlincourt' of the Tournier Pair lines paired to one of the last daughters ever bred from wonder cock 'Dikke Blauwe'. 'Tinkelbel's partner was a son of 'Big Boom' x 'Evita'

and together they already bred the great class racers/ breeders 'Minerva', 'Ajax' and 'Athena' and a great future in breeding was ahead of this pair. However when 'Tinkelbel's partner became ill just before the 2007 breeding season, Arie wanted a full brother to replace the cock.

At least 7 more children of 'Big Boom' x 'Evita' had than already won 1st prizes, however Arie chose the beautiful 2005 summer youngster from this pair ringed NL05-1857139 as new partner ... this was something special, only he had donated this cock to his club for a charity auction. Arie believed this was the ideal partner for 'Tinkelbel' and he bought him back and called the cock 'Leonardo'. In the winter of 2006-2007 'Leonardo' & 'Tinkelbel' were first paired and for Arie Dijkstra that meant 'game on' on the way to the Champions League of Internationale pigeonsport.

In the first breeding year, 'Leonardo' x 'Tinkelbel' bred 4 super pigeons:

- 'Okidoki'; 2. Nat. acebird long dist. 2008  
NPO & WHZB
- 'Spikkeltje'; 1. s-prov. acebird long dist. 2008
- 'Boogie' 1. prov. acebird Friese Fond Club 2009
- 'Gouden Kweekduivin 726'; Breeder of over  
10x 1. up to +10,000 b.

It was just the start of an overwhelming dynasty in pigeon racing. Other children of the champion pair like 'Pico Bello', 'Mona Lisa', 'Rocking Blue', 'Okidoko', 'Lilly', 'Diablo' and many other showed unique breeding skills. What followed was an concatenation of highlights, first in The Netherlands but later definitely also abroad!

The International breakthrough followed especially when Jan Hooymans and Leideman Brothers both send a grandchild of 'Leonardo' x 'Tinkelbel' to the Million Dollar race in South-Africa in 2012 ... they became 2. and 6. Grand Avg. acebird and was the start of 10 years of incredible successes with 'Leonardo' x 'Tinkelbel' successes on one loft race. By the end of 2020 they had already won over 2.000.000 US Dollar worth of price money; an astronomical amount. It makes this super Arie Dijkstra as probably the most successful breeding pair in One Loft Racing!

### // ARIE'S ADVICE:

"It is very good to see that crossing my pigeons to other strains, works extremely well," says Arie. "The base of my pigeons are both the allrounders of Tournier that can win up to 1,000 km, with that slice of Gebr. Janssen for the short distance. And that is resulted in a very special quality of the 'Leonardo' x 'Tinkelbel' pigeons. When you cross them to marathon pigeons, they will bring you successes on the toughest battles ... when you cross them to sprint pigeons, they win you races from 100 or 200 km."

# ARIE DIJKSTRA PIGEONS; EXCELLENT IN ONE LOFT RACING

- USD 100,000; car winner in final SAMDPR 2014 from son 'Leonardo' x 'Tinkelbel' (Jan Hooymans);
- USD 150,000; 1. final OLR China 2016 from 'Spikkeltje', dght. 'Leonardo' x 'Tinkelbel' (Steven Fang);
- USD 70,000; 1. final Big Andy OLR USA 2020 from father inbred 'Tinkelbel' x 'Leonardo' / 'Br.Leonardo' (Q-BA Family Loft);
- EU € 80,000; 1. final European Masters OLR Romania 2019 from son 'Purdey' = from son 'Lichte Morlincourt' x 'Sister Leonardo' (Alfons Klaas);
- USD 85,000; 3. final + 1. acebird Gr. Avg. SAMDPR 2013 from 'Fantom', son 'Lichte Morlincourt' x sister 'Leonardo' (Alfons Klaas/Hans-Paul Esser);
- USD 40,000; 1. final California Classic USA 2020 from son 'Leonardo' x 'Tinkelbel' (Kenny Rhodes/Doug Swingley);

# The 'Kaasboer' connection

## *excelling for Arie Dijkstra*

**An inbred family winning with massive winners in all generations. That is what Arie Dijkstra was looking for in search for an extra quality injection. Tough pigeons, experienced in National dominance ... and he purchased the golden trio 'Gastorina', 'Inteeltje Kaasboer' and 'Gaston's Aske'. All original Gaston Van De Wouwer and all inbred to world famous 'Kaasboer', ancestor to so many National aces and winners ... Now after a few years breeding, all three 'Kaasboer' hens bred top racers for Arie Dijkstra.**

"It is kind of strange that pigeons from a man I never met, have such an impact on my results," says Arie. Normally he would never purchase pigeons from a fanciers without visiting him. However when the opportunity came to bring in 3 strongly inbred 'Kaasboer' hens to his colony, Arie did not doubt for a single moment. "The impact of Van De Wouwer pigeons in Belgian pigeon racing and beyond is enormous; this was a chance I had to take. And when I first handled the hens, I was directly convinced; these hens I had to pair to the very best I have and they could very well give an extra impulse to my performances!"

Arie was very right. BE14-6306553 'Gaston's Aske' - from grandson x granddaughter 'Kaasboer' - bred for instance 'Fuzzy Blue', winner of 1. NPO Fay aux Loges and she is grandmother of NPO talents 'New Gastorina' and 'Young Kaasboer' ... BE14-6306534 'Inteeltje Kaasboer' bred triple 1. prize winner 'Muze', multiple acebird 'Boom's Gaston' and is grandmother of 9. Nat. Rethel winner 'Young Kaasboer' ... however the queen of 'Kaasboer' team at Arie Dijkstra is BE12-6023410 'Gastorina'.

### **'Fausto's eternal fame**

'Gastorina' was already breeder of 1. prizes at Gaston

Van De Wouwer, before she came to Arie Dijkstra. In 2015 she was paired to 'Vince' (inbred son 'Okidoki') and they bred 'Fausto'. One of the best pigeons Arie Dijkstra ever had with a massive win on Weert (3,375 birds) and 2x top 3 provincial of 10,292 b. and 20,388 b. ... he was crowned 10th Nat. acebird speed TBOTB/WHZB in 2017. Is that really one of the best Arie ever had? "Fausto just has one shortcoming," Arie explains, "he is a very bad trapper. On several races he wasted several minutes and absolutely withhold himself a legendary status. He should have won 5 or 6 massive wins; for sure he had the opportunities. His full brother 'Kashmir 80000' was the opposite; he rushed in like crazy and won 4x 1. prize! Together these brothers were the absolute top aces in my racing loft!"

In breeding 'Fausto' however 'Fausto's skills gave him extra credits. He bred 'New Fausto', winner 1. Deurne 17,128 b. and a/o crowned as 7. Nat. acebird YL DE ALLERBESTE 2020 and 8. Nat. acebird speed late tour WHZB/TBOTB 2019 ... on the disastrous race of Sens in 2021 'New Fausto' was lost. Another top class son of 'Gastorina' is the 1. acebird & 1. prize winner 'Cosmic' (father is 'Rocking Blue', son 'Leonardo' x 'Tinkerbel') ... Dutchman Rink Wijnstra purchased a full sister to 'Cosmic' and from her he bred his 1. prov. acebird LD FFC 2019, also 2. Dutch Olympiad bird allround Cat. D 2022 (2019 + 2020)

Mother is original Arie Dijkstra from 'Rocking Blue' (son 'Leonardo' x 'Tinkelbel') x 'Gastorina' (VD Wouwer).

# 'OCTAVIO', ONE OF THE BEST PRESERVED DIJKSTRA SECRETS

With pigeons like 'Leonardo' x 'Tinkelbel' and 'Gastorina' the colony of Arie Dijkstra showed extreme muscles ... however there's another champion in the breeding team with absolutely phenomenal breeding achievements; 'Octavio'. His father is a grandson of 'De Big Boom' (father 'Leonardo') and his mother is a granddaughter of 'De Late v.d. Strik' (grandfather 'Tinkelbel'). And just like for 'Powerplay', an extra quality injection in the 'Octavio' genes comes from the strain of Flor Engels, from his famous lines of 'Den 231'.

Direct children of 'Octavio' have already won many 1. prizes and more generations are doing exactly that over the last years. One of the best was 'Mano Manos'. He won no less than 40 prizes in two years and won several acebird titles, including 1. Fed. old allround. At the top of his fame, a disastrous race in 2017 made him 'missing in action' together with many other champion racers in the province of Fryslân ... Yet he was still able to pass on his class to his progeny and his name lives on in the Arie Dijkstra strain ...

The absolute greatest tribute to 'Manos Manos' influence in the present colony came in 2021 ... on the NPO race from Sens 602 km his grandchild 'Sensible Blue' came to win 1. NPO from 5,706 birds. Another superson of 'Octavio' is 'Joshua', first a super 1. acebird with 4x 1. prize with many top positions against thousands of birds ... and already showing top breeding skills already. In other words; a worthy successor of 'Octavio'.
