## THE STORY OF

# Anthony MAES

## FROM FRUIT FARMER TO TOP PIGEON FANCER

Anthony Maes' roots in the pigeon sport are located in Ardoie, where he slowly made his first baby steps into the pigeon sport. The start of the incredible success story that we now know anno 2021.

The true start of the pigeon fancier success story, which is filled to the brim with its shining moments, began, according to Anthony in 2005 in Roeselare. The year in which he found his footing and where he got his first taste of big success with the **Provinciaal BE04-3108212** which won the **1st Prov Chateauroux of 7.206 pigeons** (speed 1150 m/min). It was a difficult race, one for the real 'doers'. A direct son of Provinciaal - the **Superkweker BE05-3072806** - forms a powerful stock breeder couple with the BE04-3144238 Sonja (from Charles Matthys- Houtave, BE), this couple can be found back in the pedigree of basically every top bird at Anthony Maes' loft. They are the parents of **Kathy** (mother of Sero Sero) and most importantly of the **Bonten Provinciaal BE06-3143261**, the current top breeder of the loft.

### Where a woman's hand takes care of the birds...

Anthony and his wife Chantal run a wholesale in vegetables and fruits. Because the location at Roeselare was slowly becoming too small, they had been searching for a new, and mostly bigger, location. They found this extra space in 2007 at an old farm in Waregem. This farm was repurposed and renovated, and it was not long before a beautiful modern pigeon complex was established on the property. With **Provinciaal** they had tasted success, and success tasted like more... who doesn't feel that way?

That said, choices had to be made to turn the hobby into a success story. The wholesale of fruit was more than a small choir for Anthony. To give you an idea, weekly Anthony traded in between 150 and 200.000 kilos in fruit. That required many visits to local farmers as well as making pricing deals. The road to the fruit auction in

for successful pigeon fancying. For this reason, the decision was made in 2007, during the move to Waregem, that Chantal would stop with the vegetable and fruit business and dedicate herself fully to the pigeon sport.

The Flemish saying that "Where a woman's hand takes care of the birds, the races are hard-fought" was quite applicable in Chantal's case. Anthony drastically dialled down his activities within his company, regardless, he too suffered from breathing problems. Far from ideal in an environment rich in pigeon dust. This forced him to wear a mask with a double filter when he entered one of the lofts. Not exactly comfortable... this meant even more that Chantal became the heart of the pigeon colony. Her drive and knowledge are clearly reflected in the results.

### The foundation, build upon 3 consecutive generations: the Provinciaal – Superkweker and Bonten Provinciaal

The success in the fruit business was built upon working with only the best ingredients. When Anthony left for a fruit auction, it was with grade A materials, not with bruised apples, pears or half-rotten oranges. Far from it, only perfect products deserved and got the right price. This same philosophy was applied to the pigeon sport by Anthony and Chantal. Only with 'the very best' can one reach the top. The Provinciaal unfortunately died on the field of battle, yet... with 4 of his descendents, Anthony and Chantal could make a new start in Waregem in 2007. The strong West-Flemish competition knows this better than any other. The lineage of these **4 descendents of the Provinciaal** are a red line throughout the colony and its success, with **Superkweker** and his son **Bonten Provinciaal** as the absolute stock breeders of the loft.

▲ The pigeonlofts of Anthony Maes

It did not take long after the move to Waregem for continuous success to settle in. From 2009 onwards the 1st Provincial victories kept coming at a rapid pace. In 2010 Braven (grandson Provinciaal and full brother Bonten Provinciaal) won the 1st Provincial Blois and this ace would later grow into a top breeder. Later the winning spree would continue with victories from Montluçon, Bordeaux, Gueret, and Chateauroux. Chantal and Anthony Maes had become the 'rising stars', the people that the competition would look up to and hope to compete with. It was time for wonderbird Papillon to enter the scene.

### Superlady Papillon wins 2 x 1st Provincial within a week

It seemed like the time had come to go a shift into an even higher gear. From a Brother Sonja BE04-3144281 x Beauty 847 BE11-3168847 (daughter Bonten Provinciaal)

St-Truiden - where he sold his good - he knows better than the GPS in his car. Anthony worked days that usually started at 10 pm in the evening, and ended at 2 pm in the afternoon. Obviously, that does not leave much time

a new champion was bred. Her name is like music to the ears of any veteran fancier in the field: **Papillon BE13-3002971**.

25/04/15	Clermont	Provincial	8.382 p.	64th	
09/05/15	Fontenay	Provincial	9.261 p.	79th	
17/05/15	Tours	Provincial	5.697 p.	2nd	0,0351%
30/05/15	Bourges I	Provincial	2.365 p.	1st	0,0423%
06/06/15	Châteauroux I	Provincial	3.078 p.	1st	0,0325%
13/06/15	Guéret	Provincial	1.769 p.	14th	0,7914%

What a top hen! Within a period of 4 weeks she won 2nd - 1st and against 1st Provincial. She had 5 minutes over the competition on Bourges and was the **fastest of 4.466 pigeons**. Besides that she reached the national results 3 weeks in a row, and after Bourges I, Chateauroux I and Gueret she was ranked as 1st on the national level over 3 national races in the PIPA-rankings.

The racing season was not even half done... yet Anthony and Chantal had to make a tough decision. Could they risk to basket their top hen again, and potentially lose her? It was the same fate that happened to the Provinciaal. Such a thing could not repeat itself and after several days of consideration, Papillon was removed from the racing crew, and brought to the breeding loft. The regret for this decision came too late. The provincial Tours do not count towards the National Ace Pigeon Championship KBDB. Thus Papillon was 1 race short on qualifying. For Provinciaal the Tours did count which meant Papillon did end up becoming the **1st Provincial Ace Pigeon Long Middle Distance Old Birds KBDB West-Flanders**. Yet what is done is done... and they did not have to wait long in Waregem for a new champion.

#### **Sero Sero brings the 1st National victory to Waregem**

The second biggest name in 2015- born in the same blessed year as Papillon 2013 - was the blue cock **Sero Sero BE13-3079100**, named after the two zeroes in his ring number, and a grandson of Superkweker 806/05 (via his mother 'Katy'). Papillon won the title of 1st Provincial Ace Pigeon Long Middle Distance Old Birds KBDB and Sero Sero followed her soon afterwards with the **3rd Provincial Ace Pigeon Long Middle Distance Old Birds KBDB**. The wonder bird reached the next level in 2014 with a 2nd prize from Clermont 203 p., the 39th Provincial Chateaudun 3101 p. and most impressively the 4th National Châteauroux 21.515 p.

He continued his high level of performance in 2015 with, among others the following achievements:

### 3. Provincial Ace Pigeon Long M.D. Old Birds KBDB 2015

09/05/15	Fontenay	Provincial	9.261 p.	23th
17/05/15	Tours	Provincial	5.697 p.	7th
13/06/15	Guéret	Provincial	1.769 p.	3rd
28/06/15	Argenton I	National	12.187 p.	31th
11/07/15	Châteauroux II	Provincial	1.441 p.	116th
18/07/15	Tours	Provincial	1.416 p.	6th

Because you can not put all your ace pigeons on the breeding loft - it would lead to a too great loss of quality in the flying crew - Anthony and Chantal decided in 2016 to keep Sero Sero in their racing crew. This topper would not disappoint... during the first big national competition of season 2016, he immediately won a 28th National Chateauroux out of 25.126 pigeons. The next national race he partook in he delivered once again with a 39th Provinciaal Argenton out of 2.644

pigeons. His talent was obvious. As the temperatures raised, so did his condition reach its peak. Sero Sero showed this in more than his enthusiasm for the daily training... the highlight came on the 9th of Juli in 2016 during the memorable national Argenton. Here **Sero Sero** showed his tail to every other pigeon in the race and won the **1st National Argenton**

against **9.228 old birds**, and was **the fastest pigeon out of 21.644 participants**. The first national triumph from Anthony and Chantals young pigeon career was a fact! After his impressive feats Sero Sero moved to distant

lands, though before he was sent away, some descendents were bred that could continue his lineage and performances. That Sero Sero was in the possession of supergenes he proved with his progeny. His genes are clearly visible in both the breeding loft as well as with the high performance level of the racing crew anno 2021. Where it is the descendents of Sero Sero that claim the spotlight. Coupled to Papillon one of them became the father of the modern golden breeding pairs **Perfect Sero Sero BE16-3122086** (one of the best breeding hens that Anthony Maes has ever possessed), mother (mostly coupled to son King Kong Gaby Vandenabeele) and grandmother of Fine Fleur, Ace-wonder, Cent et Deux... as well as of **Braafke Sero Sero BE16-3122085** (nest sister Perfect Sero Sero), mother of 't Fontenaytje and of the 2nd Prov Ace Pigeon Small Middle Distance KBDB 2020... and

**The Beast BE16-3136599** (son Sero Sero), and father of the 1st Prov Chateaudun, 2nd Prov Pontoise etc... **Sero Sero 49 BE16-3136649** and **Darling BE16-3136648**... all pigeons that we will talk about later in the catalogue.

Those who somehow are not convinced by the breeding power of Sero Sero, should call the maestro of the Hageland -Gommaire Verbruggen- who boosted his colony with a massive quality injection

by buying 2 direct sons of Sero Sero. **The 2 best pigeons that I have ever bought**, thus Gommaire. That tells much, if not everything! The best crew of Belgian yearlings in 2020 was located on the lofts in Kaggevinne and was mostly

**“The sons of Sero Sero  
are the 2 best  
pigeons that I have  
ever bought”**

GOMMAIRE VERBRUGGEN

▲ The many prizes won by Anthony and Chantal Maes

compromised out of direct children and grandchildren from the 2 sons Sero Sero. Count and be convinced!

Having said that, it was not all roses and sunshine at the end of the top season of 2016 in Waregem. After a new consult with his Pulmonologist, Anthony was told it was better to stop with the pigeons and ban them from his life for good. To stop with one's lifework was hard to bear, also because Chantal her pigeon skills, joy and race happiness would be gone as well. Ultimately it was decided that they would continue with a smaller crew... Anthony would only interact with the pigeons minimally and have to bear the discomfort of wearing a facial mask (with double filter) when he entered his loft. There was no other way.

### A dream come true: the Bonte Crack crowns himself the 1st National Ace Pigeon KBDB

In 2017 the start was made with a smaller group of pigeons. Yet the ambition to compete with the very best in the sport remained. After some brainstorming, the decision was made to fully commit to that goal, Chantal would spend some extra energy there where it was necessary. She had become the beating heart of the colony even more than before. The woman's touch... it did its job. Within no time the 1st Provincial victories were rolling in. Yet every medallion has its other side. In 2018 the entire region was suddenly locked down... The bird flu forced everyone in the region to stop playing for nearly 5 weeks. Just when a new talent of the latest generation was showing what it was capable of, namely the **Bonte Crack BE17-3033516**.

In 2018 he instantly showed what he was made off

- |                      |           |
|----------------------|-----------|
| 3. Nat. Chateauroux  | 13.098 p. |
| 86. Nat. Argenton    | 19.859 p. |
| 44. Chateauroux Zone | 8.080 p.  |

With these performances, he seemed well on his way to qualifying as an ace pigeon, possibly even at the national level. Bird flu said no to that. 5 weeks of no races. Gone were the titles, gone was the possibility of an Ace Pigeon. Possibly the forced closing of the racing season also had a positive impact. Because Bonten Crack showed up at the start of 2019 well rested and ready... as befits the great champions... for revenge.

Despite the cold spring, the racing crew of Anthony Maes proved ready for the first long-distance confrontation of 2019, Limoges. The **Bonte Crack** must have made quite

the impression upon Anthony and Chantal as a yearling, because he had their full trust and was basketted as the 1st signed. A trust that he delivered upon by winning a quick **12th National Limoges I** against **13.569 pigeons**.

To avoid taxing their 2-year old wonder pigeon too much, he was given a national Argenton as an in-between race and to prepare him for the national Limoges II. At this Argenton he won a beautiful 165th National out of 15.235

pigeons. During the national **Limoges II** -raced under beautiful conditions, although very hot summer weather with an eastern wind- the Bonte Crack unleashed his talent... and won **2nd Nationaal out of 9.661 pigeons**.

How close can one be, with a 2nd national victory? Shit, almost. Yet with these new top achievements, the Bonte Crack put his bosses Anthony and Chantal in front of a new dilemma. Continue playing him, or the breeding

pans? Could they take the risk to keep basketting him, in order to win the 'National Ace Pigeon Title Long Distance'? The story with Papillon comes to mind - which they stopped too early to win the national ace pigeon title - and it was Papillon that made them decide to risk it this time. The daily training sessions were to satisfaction and the top condition of the racing crew seemed stable. They were filled with fire, life and vitality. They trained hard, individually and together. That is what everybody likes to say. Until, during the very last training before basketting, the Bonte Crack was suddenly missing. Anthony once again broke out in a sweat when he told us the story.

It was 20 minutes after all of his loft mates had already come in, when suddenly he struck down as if something had possessed him. Was this a sign of a 'numero special' or was it a horror story in the making?

All the bad omens were there because the day after basketting the weather forecast changed drastically all of a sudden. It couldn't be? The predictions came true,

the tension was tangible for Anthony Maes. During situations like these, it is often better to stay quiet rather than make people even more anxious. Everyone experiences that fear in their own way. You must understand the relief that Anthony experienced when he saw 'Libourne: delayed till tomorrow' on his screen. Oof! That Sunday morning the racing line was clear and everything seemed ready for

release. Up to Paris there was a northern wind, after Paris the wind was gradually going more towards the west.

It was clear that this would not be an easy race. Though it was hard to predict the speeds, or where the first pigeons would fall. Naturally, Anthony, Chantal and the other watchers were early on their posts. When it is a 'must' then every minute feels like a quarter... you know how it is. With every minute gone your heart beats a little louder. What stress can do to a person is incredible. Especially when the first pigeons are being registered near the bother. It has to happen now.... The adrenaline reaches its zenith. Then one of the watchers saw him coming from the distance.

"Was this a sign  
of a 'numero special'  
or was it a horror story  
in the making?"

Where... Where? everyone looked at his usual approaching spot, but nobody saw him. Then somebody else called out... he is here! The wind had pressed out towards the centre, from where he fell down on the loft as fast as a bullet. A new top performance had become a fact. **with 0.39%** he was not just in 'pole' for winning the 1st National Ace Pigeon Long Distance KBDB, but also had an extremely sharp coëfficiënt. Yet it was another week of suffering, a week filled with stress. Cause it was waiting for the results of the final race from Tulle, to know if any other pigeon would manage to beat Bonte Crack for the national ace pigeon title. It did not happen... and the celebration was great.

The **Bonte Crack** became the **1st National Ace Pigeon Long Distance Old Birds KBDB 2019** with the following

3 top results:

12. Nat. Limoges	13.569 p.
2. Nat. Limoges	9.661 p.
13. Nat. Libourne	4.605 p.

Once again prove that ace pigeons breed ace pigeons. The father of the Bonten Crack is **Crack BE14-3006002** - this birds name says all you need to know about his performances.... a 'super pigeon', and grandson of stockbreeder Bonten Provinciaal 261/06-, while his mother **Bontje Staf BE11-3073396** is a full sister of the father of Sero Sero.

The apple did not fall far from the tree here. Once again this shows that the top success of Chantal and Anthony Maes is built upon '**top quality!** With the Bonte Crack, a long-held dream became reality... **the title of General Provincial Champion KBDB West-VL 2019**, this made the success story complete.

**1st National champion and 2nd National Ace Pigeon Longer Middle Distance KBDB 2021**

The sporting season of 2020 was terrorized by Corona, and only at the end of Juni, it finally started moving. When one looked at the results it seemed like the Anthony Maes-pigeons had been saving their energy

week upon week to finally unleash it in one blinding performance, coupled with an insatiable thirst for the podium. The dominant winning streak of the racing crew, week after week translated itself into an impressive series of titles on the Provincial and even the National level:

1. Prov. Ace Pigeon KBDB Long Middle Distance Old Birds '20 (Blue Velvet)
1. Prov. Ace Pigeon KBDB Long Middle Distance Yearlings '20 (Cent et Deux)
2. Prov. Ace Pigeon KBDB Long Middle Distance '20 (Fine Fleur)
2. General Provincial Champion KBDB '20
2. Prov. Ace Pigeon KBDB Short Middle Distance o.+ Yearlings '20
2. Prov. Ace Pigeon KBDB All-Round o.+ Yearlings '20 (Cent et Deux)

With **Blue Velvet BE18-3073699** (a granddaughter of Superkweker 806/05) the **5. Nat Ace Pigeon Long Middle Distance KBDB 2020** was also won.

The climax of this successtory occurred in 2021. Another top season was crowned with several 1st Provincial victories. A new generation of 'winners' and 'super pigeons' has clearly arisen. Super pigeons of the level of **Fine Fleur, Cent et Deux, Blue Velvet, de Zevenhonderd, Ace-wonder, Souterraintje, Sky...** each of which shall be discussed one by one in this catalogue. All of them, piece by piece, breed from a direct line towards super pigeons like Sero Sero and Papillon, or the old golden line of the Bonten Provinciaal, de Superkweker and the Provinciaal...

crossed with the pigeons of Gaby Vandenabeele (lines Rudy, King Kong etc.) this new generation's prowess has pushed the Anthony Maes- colony to the absolute apex of its pigeon career. After a 1st National victory in 2016 with Sero Sero and the 1st National Ace Pigeon Long Distance KBDB in 2019 with Bonten Crack, Anthony and Chantal will be able to once again climb the stage of the greatest podium of the KBDB as the newest **1st National Champion Long Middle Distance Old Birds KBDB 2021**

**Seven BE18-3132777** - a granddaughter of Sero Sero and halfsister of Papillon - completed the success and dragged in, besides a 1. Prov Argenton 2.898 p., 2. Nat Zone La Souterraine 1.183 p... the title of **2. National Ace Pigeon Great M.D. KBDB 2021.**

Do you know what makes all of this even more impressive? The fact that the colony of Anthony Maes has it anything but easy when it comes to the longer middle distance at the national level. These pigeons have to fight week after week against numbers, weather and wind on races of circa 480 to 500 km. No sinecure, yet they were able to crown themselves as the best of the nation with **"National NR 1" at the long middle distance KBDB with the old and young birds** Hats off Congratulations! It showcases quality with a capital letter. Nowhere you will be able to find beter. Pigeons that wear a bit of gold on practically every feather.

# HIGHLIGHTS ANTHONY MAES

- 1. Nat. Champion KBDB great middle distance 2021
- 1. Nat. Ace KBDB long distance 2019 – Bonte Crack
